

Scope: Provision of foreign trade services, customs clearance, warehousing, sea, road, air, and intermodal (rail) logistics operations, as well as inland and international delivery services.

Facilities and Corporate Structure

Our headquarters, located at Barbaros Neighborhood, Ak Zambak Street, Uphill Towers No: 3, Unit No: 88, Ataşehir/İstanbul, serves as the central hub for managing all our foreign trade and logistics operations. Strategically situated in Istanbul, it ensures efficient access to both domestic and international partners.

Reporting Under Responsible Business Conduct

This annual report, reflecting the fiscal year 2024–2025, outlines our dedication to responsible operations, driven by ethical, legal, and environmental principles across all aspects of our business.

Vision and Mission Alignment

Our vision is to be a trusted and responsible logistics and foreign trade brand on a global scale. Our mission is to build a sustainable and customer-oriented supply chain that complies with laws, respects the environment, and delivers high-performance logistics solutions.

Strategic Responsible Sourcing Approach

All suppliers undergo comprehensive pre-engagement assessments. We do not engage with non-compliant entities. This firm stance reflects our ethical commitment.

Compliance Monitoring and Legal Tracking

Our Integrated Management System, aligned with ISO 9001, 14001, and 45001 standards, ensures operational compliance through active monitoring of legal updates and regulatory changes.

Corporate Governance and Policy Deployment

All policies are endorsed by top management and communicated throughout the organization. A zero-tolerance approach ensures full alignment and accountability.

Stakeholder Engagement and Transparency

We maintain open communication with stakeholders, sharing OECD guidelines and our supply chain policies to reinforce ethical practices throughout our network.

Financial Integrity and Performance

Our financial operations comply fully with government regulations, and independent audits confirm a 20% growth in revenue, reflecting market confidence and operational strength.

Promoting Responsible Conduct Among Business Partners

All business partners are required to uphold standards relating to human rights, environmental responsibility, and ethical conduct, and are monitored accordingly.

Environmental and Occupational Safety Management

We maintain a safe working environment through ongoing risk assessments, employee well-being initiatives, and compliance with both local and international standards.

Continuous Improvement and Industry Leadership

With ongoing investments in digital transformation and efficiency, we aim to strengthen our leadership position in the logistics sector.
